About

Senior Frontend Developer with 6+ years of commercial experience building B2B and B2C products used by tens of thousands of daily users. Worked in teams of 5–120 developers in distributed, remote, and on-site environments. Strong background in full development lifecycle: requirements analysis, API design, implementation, CI/CD, automated testing, production rollout, and metrics-driven iteration.

Skills

Frontend: React, TypeScript, JavaScript, Next.js, React Query, Redux, HTML, CSS, Emotion
Testing & tooling: Jest, Vitest, Playwright, Storybook, Vite, Webpack, ESLint, pnpm, CI/CD
APIs & data: Node.js, Go, Python, HTTP/gRPC, SQL, PostgreSQL, ClickHouse

Experience

Yandex Business Travel **2026 – Present**

Corporate travel and event booking

- Launched corporate event booking (MICE) for a base of 15k+ business clients by building React and Redux-Saga interfaces for organizers and bookers and integrating 4 event providers. Clients booked 1,200+ events in 3 months
- Built self-service rail refunds and loyalty card management using 6 provider APIs. The refund flow handled 70% of rail refunds and cut related support tickets by 35%
- Built an AI travel agent handling 3k+ requests per day and raised task success from 62% to 81% through evaluations and feedback loops

Yandex Go — Fleetroom & Garage **2023 – 2026**

Fleet operations and vehicle rental

- Launched Yango Garage's rental-request flow for a marketplace with 10k daily active drivers and 2k+ fleets across 9 countries
- Raised Lighthouse from 56 to 92 by optimizing builds, asset loading and CDN caching
- Cut CI build times by 23.6% with shared jobs, pnpm and cache reuse, removing legacy steps
- Mentored 17 students through projects and weekly reviews; 12 joined Yandex

Sberbank **2020 – 2023**

Online banking and product analytics

- Enabled weekly funnel, error and cohort reviews by delivering an analytics UI for a platform handling 60M+ events daily
- Standardized tooling for 30+ teams with shared ESLint, Webpack, Jest and Storybook configurations
- Co-developed Nova Design System for web and mobile apps, adopted by 120+ developers
- Supported TypeScript adoption through 4 internal talks and type definitions for 3 libraries

Education

Far Eastern Federal University · Master's in Computer Science **2018 — 2024**
School 21 · Software Engineering (42 curriculum) **2019 – 2023**
